DETAILED ACTION

Claim Objections

Claim 12 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1. The recitation of an intended use is not seen to distinguish claim 12 from claim 1. Regardless of what the compounds may be used for the respective claims read on the same compounds. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 101

Claims 13-16 are rejected under 35 USC 101 because the claims do not set forth any steps involved in the process for reasons of record. It is not seen that language such as "synthesizing ... with" or "crosslinking ... with" sets forth an actual process step.

Claim Rejections - 35 USC § 112

Claims 13-16 are rejected under 35 USC 112, second paragraph, as failing to particularly point out the claimed invention. The claims do not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced. Even to the extent it can be argued that the claims set forth a process steps, the claims fail to set forth critical elements such the actual reactants, reaction conditions, products and the like.

Allowable Subject Matter

Claims 1-11 and 17 stand allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
